The Snow Queen hosts nightly fireside chats and records how many stories she tells each evening....

**Question 1:** The Snow Queen hosts nightly fireside chats and records how many stories she tells each evening. Can you calculate the running total of stories she has shared over time, in the order they were told?

```
SELECT
    log_date,
    SUM(stories_shared) OVER(
        ORDER BY log_date
    ) AS running_total_stories
FROM story_log;
```
