Over the 12 days of her data challenge, Data Dawn tracked her daily quiz scores across different subjects....

Question 1: Over the 12 days of her data challenge, Data Dawn tracked her daily quiz scores across different subjects. Can you find each subject's first and last recorded score to see how much she improved?

```sql
SELECT DISTINCT
  subject,
  FIRST_VALUE(score) OVER (
    PARTITION BY subject
    ORDER BY quiz_date
  ) AS first_score,
  LAST_VALUE(score) OVER (
    PARTITION BY subject
    ORDER BY quiz_date
    ROWS BETWEEN UNBOUNDED PRECEDING AND UNBOUNDED FOLLOWING
  ) AS last_score
FROM daily_quiz_scores;
```
