In the holiday cookie factory, workers are measuring how efficient each oven is....

Question 1: In the holiday cookie factory, workers are measuring how efficient each oven is. Can you find the average baking time per oven rounded to one decimal place?

```
SELECT  
    oven_id,  
    ROUND(AVG(baking_time_minutes),1) AS avg_baking_time  
FROM cookie_batches  
GROUP BY oven_id
```
