The elves are testing new tinsel–light combinations to find the next big holiday trend....

Question 1: The elves are testing new tinsel–light combinations to find the next big holiday trend. Write a query to generate every possible pairing of tinsel colors and light colors, include in your output a column that combines the two values separated with a dash ("‐").

```
SELECT
    t.color_name,
    l.color_name,
    CONCAT(t.color_name, ' - ', l.color_name) AS combination
FROM tinsel_colors t
CROSS JOIN light_colors l;
```
