The Gingerbread House Competition wants to feature the top 3 builders who used the most distinct candy types in their designs....

**Question 1:** The Gingerbread House Competition wants to feature the builders who used at least 4 distinct candy types in their designs. How would you identify these builders?

```
SELECT
    builder_id,
    builder_name,
    COUNT(DISTINCT(candy_type)) AS candy_count
FROM gingerbread_designs
GROUP BY builder_id, builder_name
HAVING COUNT(DISTINCT(candy_type)) >= 4;
```
